SUMMARY OF ANNUAL MEETING.

The twenty-eighth Annual Meeting of the Manchester and Salford Boys and Girls' Refuges and Homes, and Children's Aid Society, was held in the Free Trade Hall, Manchester, on Thursday, March 24th, 1898.

In the unavoidable absence of the Lord Mayor (Mr. Alderman Gibson,) Mr. W. J. Crossley, Esq., J.P., took the chair at 7 o'clock, supported by Principal Hopkinson, Q.C., Reuben Spencer, Esq., J.P., Rev. William Robinson, Rev. S. F. Collier, Andrew Boutflower, Esq., Henry Charlton, Esq., James Boyd, Esq., and others.

The Rev. William Robinson offered prayer.

The Annual Report and Balance Sheet were presented. The Hon. Sec., Mr. Leonard K. Shaw, gave a summary of the Report, which was taken as read, and an abstract of the Financial Statement was read by the Hon Treasurer, Mr. Henry Charlton.

It was then moved by Principal Hopkinson, Q.C., seconded by Reuben Spencer, Esq., and resolved:—

"That the Report together with the Financial Statement be adopted, printed, and circulated under the direction of the Committee; and that the Committee for the ensuing year be Messrs. William J. Crossley, John Thomson, Richard B. Taylor, James Boyd, Thos. R. Ackroyd, Alfred Haworth; the Honorary Secretary, Leonard K. Shaw; The Honorary Treasurer, Henry Charlton; and the Auditors, Messrs. Theodore Jones, Crewdson, and Youatt.

Afterwards a musical programme was rendered by the children from the various homes, and much appreciated by a large audience.

God's heirs, too, in this wide and fruitful earth—Go beggared, spite our sterile charities!

More love, more love!—would God we had more love!

O Father, help us so to hear man's cry,

That heart to heart shall answer—not alone
Hand answer hand. God, help us so to give

That, in the giving, soul and gift may glow

With that most wondrous, that unuttered joy

Of heart to heart with the indwelling Christ!"

TWENTY-EIGHTH ANNIVERSARY.

ANNUAL REPORT

OF THE

Boys and Girls' Refuges and Homes,

AND

CHILDREN'S AID SOCIETY,

FOR THE YEAR 1897.

In sending forth the record of the Twenty-Eighth year's work of this Institution, the Committee who guide its operations desire for themselves, and for those who as subscribers co-operate with them, to realise its deep importance, and the responsibility devolving on those who conduct it.

The importance of the work will be seen when the class-dealt with is considered, and also the numbers. The first—the class dealt with—call forth at once our sympathy and our fear. Our sympathy! truly it could not be otherwise! Who-can look upon little fatherless.

and motherless ones as they turn aside from the grave where parish hands have laid their natural protectors and with only a pauper life before them, without pity? Their very helplessness is an unspoken cry which has always entered the ears of the Refuge Committee, and thus the orphans of our City have ever been their special care.

The wandering street arab, comes to us with hardly a less claim, as with wild thoughtlessness, sharpened wits, and almost boundless capacities, he yet seems drifting down into hopeless ruin.

The wayward and workless youths, who having served their time under the Elementary Education Act, have drifted from the school to the street, and for breaches of police regulations have qualified as "First Offenders," appeal loudly for help.

The crippled and incurable ones, the sight of whose weak and wasted forms, always in poverty, have the added weight of hopeless suffering, goes to our hearts.

And last, but not least, the neglected girlhood of our City, growing up amid squalor and vice!

All these present a powerful appeal for sympathy, which we have ever recognised, and as a result our Homes are filled with such.

But not less do they call forth our fear! for this is the class from whence come the vast army of paupers and criminals which are at once a cost and a danger to our land. Leave them alone and ere long they will make their presence powerfully felt in our workhouses and gaols. But the importance of the work is not only evidenced by the class dealt with, but also by their numbers; these are neither mean nor insignificant; on an average some seven hundred children, such as we have indicated, are under our care for a longer or shorter period during the year! Seven hundred young lives with characters forming day by day for weal or woe, under our hand. This surely is a solemn trust. As we look at them in their happy homes, at their Day and Sabbath Schools, or in their busy workshops, and then think of what they were, and of what they might have been, we feel the importance of the work cannot be over estimated.

The operations of the Institution cover the same extent as last year.

Extent of the Work.

19—The Canadian Branch Homes, Belleville, Ontario, and Grenfell, N.W.T.

By means of these various branches, which meet the need of almost every description of child destitution existing in our midst, a total number of 2572 children have been dealt with during the year, (these figures include 1167 boys who were given a week's holiday at the camp), but they do not include the Messenger Brigade, or the Day Nursery, as these two branches do not sleep under our roofs.

Applications for Admission to the Homes for 1897.

We now come to the new cases dealt with during the past year. The applications numbered **540**, four hundred and eighteen boys, and one hundred and twenty-two girls. Of these—

There were under 10 years of age ... 73 540 ... 10 years and over ... 467 540 Both parents dead 135 One parent living 256 Soth parents living 149

Again we have to record that a very wide area supplied these 540 applicants: but the chief point of interest to our subscribers is the fact that with few exceptions, they were all found in their need, and in their danger on our streets, or in our immediate neighbourhood,

and so self-interest, as well as the higher claims of human and Divine pity, called for our aid, and thus prevent the temporary wanderer from becoming a confirmed vagrant.

Their condition educationally, was very similar to previous years, occasionally boys and girls of 12 to 17 years reaching us in absolute ignorance; those cases being generally the children of hawkers, and travelling show people, who, owing to their nomadic life, manage to slip through the School Board net.

Each of these 540 cases was carefully investigated with the following results:—

Permanently admitted, being of	lestit	ute	1	
or in grave moral danger			280	
Received temporary help	+++		137	
Restored to friends				540
Referred to other Institutions		***	16	
Declined as unsuitable			83	

These 280 boys and girls thus admitted, being added to the 404 in the Homes when the year began, give a total of 684 under care and training during 1897.

The following table shews the results concerning them at the year's close.

The subsequent story of many of these, as well as of former years' inmates, is told from time to time in the pages of *The Children's Haven*, the monthly organ of the Institution, which we commend to the interest and sympathy of all who care for "The Children."

Having now given the figures shewing the numbers dealt with during the past year, and some particulars regarding these, we proceed to say a brief word regarding each of the leading divisions of the work.

The Central Refuge

claims the first word.

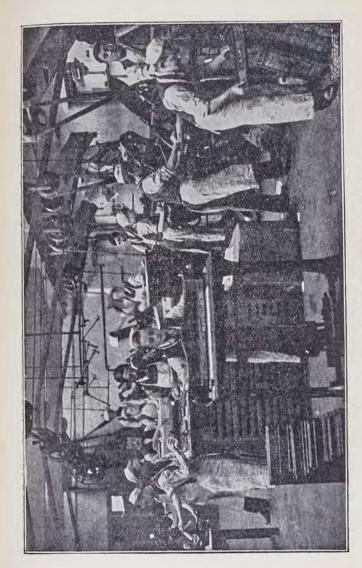

A large family has dwelt under this roof all through the year, ranging from 105 to 110 boys. All of School age attend the Southall Street Board School, while those of working age find their place either in out-door situations or in one of the six workshops, the busy hum of which is heard on every side; these

Workshops,

The Shoemaking Shop, The Joiners Shop, The Tailors Shop, Letterpress Printing, Brushmaking, Firewood Making,

have had the busiest and best year on record, the net result to the Institution, after paying foremen and boys' wages, and bearing their share of working expenses, bring a profit of £577 4s. 8d.

At the close of last year it was felt desirable to provide more employment for the increasing number of elder boys who were seeking the shelter and help of the Institution. The Committee, after much thought, decided on Brushmaking as being most generally

suitable; an experienced foreman was engaged, the shop fitted up, and with the new year operations began.

We shall be thankful to our subscribers and friends if they will, as far as they can, support our industries. Orders for any goods we supply, addressed to the Superintendent, Mr. F. A. Wood, Central Refuge, Strangeways, will have prompt and careful attention.

These six workshops present a busy and an attractive scene to the visitor. They are under the care of experienced foremen, who are chosen, not only for their skill, but for the healthy influence they exert on the boys, who are regularly apprenticed to their respective trades, and as a rule, find no difficulty in following on as journeymen when their apprenticeship is completed.

The life lived by the large family at the Central Refuge is natural and healthy, all the liberty possible, consistent with order and discipline, being allowed. The general health throughout the year has been good, notwithstanding an outbreak of typhoid fever in the month of August, which had the anxious attention of our excellent Doctor, and which, we thank God, passed away without any fatal result.

The conduct throughout the year has also been excellent, at no previous period in the history of the Institution has a better spirit prevailed amongst the lads and also among the staff, due, we thankfully acknowledge, to the influence and devotion of Mr. and Mrs. Wood, the General Superintendents, whose constant attention to the best interests of the work, and of those committed to their care, has been beyond praise.

The Committee are glad to place on record at the close of an anxious year, their sense of the faithfulness and devotion of every member of the staff, in their co-operation with the superintendents, thus bringing the year's work to a successful close.

The other Homes of the Strangeways Group, viz:

The Working Lads' Home & Institute, The Brigade Boys' Home,

The Emigration Training Home,

have pursued their course of quiet usefulness throughout the year.

The Working Lads' Home has received a total of 38 lads and young men during the year, giving them advantages to be obtained no where else at such a low rate. Each youth has his own separate little bed room, use of comfortable sitting room, news room, games room, bathroom, and fine gymnasium.

It just meets the need of working youths, strangers in Manchester, and unable to afford private apartments.

Educational and Bible Classes are held in the evenings, all under the watchful eye of Mr. and Mrs. Horne, who seek to be the friends of the family under their care.

The Brigade Boys' Home, under the charge of Mr. Beatty and Miss Vaughan, as master and matron, has received the large total of 221 boys during the year, several of whom being runaway boys from other towns, received the temporary help they needed, and were restored to their friends, while others were transferred to

the Central Refuge. The useful Shoe-Black Brigade dwell here and go forth each morning to their temporary work.

The Emigration Training Home, under the care of Mr. and Mrs. Binns, as master and matron, is the fourth of the Strangeways group, and has received 43 boys during the year, chiefly those who desire, and are best suited for farm life in Canada. Of the total number received probably not more than 25 will go this Spring to the West; the Committee deeming it wise to somewhat restrict the number pending the actual working of the new Act. They go forth again under the care of the Rev. Robert Wallace.

On the general subject of Emigration, this report says a word further on, meanwhile we proceed with the brief notices of the various branches of the Institution.

As an illustration of the class received at Strangeways, we give an outline of one or two recent cases.

HMMY, ALIAS "ICE CREAM."

JAMES I better known to every Manchester street arab as "Ice Cream," applied for admission one night about twelve months. ago, he was in a wretched state, ragged, dirty, and shoeless; the few things he wore had at once to be burnt. A bath and a change of garments made a wonderful change, he looked and seemed another lad. After the usual few days' probation, he got much attached to the place and to the lads, with whom he became a great favourite as he related his past experience of lodging-house and street life. His parents had been fairly well to do at one time, but they separated, and James was left to shift for himself: gradually he drifted down to arab life, he and his chosen companions got their living by attending Race Meetings, and gloried in telling how they cheated the Railway Co's, by travelling concealed under the carriage seats, they called it "Welshing. Jimmy's favourite occupation however, was travelling with Ice Cream vendors and Organ Grinders, hence his sobriquet of "Ice

Such was the life lived by this veritable streat arab; but one day he began to think, and then he came to Strangeways and

asked to be taken in. This was at once granted, with the result stated above. Gradually he settled down, became a useful lad in the house, obliging to all, and there is little doubt would ere long have been chosen for a situation either at home or abroad. A week however before Christmas he was taken ill, at first a bad cold, then fever, the constitution weakened by early neglect and exposure, quite broke down, and in a few days he was carried off by peritonitis. He remained quite sensible up to a short time before his death, during which he frequently expressed his regret at his careless, wicked life, and his hope that God would forgive him for all the past. Laid to rest in the Refuge grave at Kersal churchyard a goodly number of his old street companions followed the remains, and when the last words were spoken a group of Refuge boys, and also a group from the Brigade Boys' Home, stepped forward and each very lovingly placed a Memorial Wreath on the last resting place of "ICE CREAM."

A very different type of lad was "Ross," clean, smart, and good looking, the brogue told that he hailed from the Emerald Isle. This was the story he told as he stood homeless, friendless, and hungry at the Refuge door, a story afterwards verified by correspondence.

Placed by his friends in a large establishment in the South of Ireland, he earned a good character, but the hour of temptation came and he fell! Ashamed to face employers or friends he worked his way to Manchester thinking that once here he would be sure to get work soon. He was mercifully directed to the Refuge door where he found the home and help he so sorely needed. Then came the enquiries, his friends were too poor to pay his fare back, the former employers spoke well of him, and admitted there were special temptations in his case. We tested him for six months and felt sure he was an honest, well meaning lad, and then at his own desire he went forth to learn farming in the great North West, from whence we have had good reports concerning him, and, grateful for the help given at Strangeways, he sent us his first earnings to help to send out other boys.

Leaving Strangeways, and before speaking of the Cheetham Hill branch of the work, the

Open Day and Night Shelter,

1, Chatham Street, Piccadilly,

claims a few words. This useful and important branch

has been an active centre of work among children of all ages throughout the year, receiving 416 young people between the ages of one and eighteen years under its sheltering roof, 75 of them being girls between the ages of 12 and 18 years. When we add, that of this total number no less than 102, or one-fourth of the whole, were brought in by the police and others, between the hours of 10 o'clock at night and 4 o'clock in the morning, the need and the blessing of this Ever Open Door will be apparent.

As we stated last year, the immense value of this branch lies in the fact, that it is an immediate rescue home for those, and specially elder girls, who from various causes find themselves friendless, destitute, and in grave moral danger on our streets. To have in the centre of our city a well appointed house, with doors open day and night for the reception of such, is a fact of the highest importance, and cannot be too widely known.

The Police and School Board Authorities have used the Shelter largely during the year. No less than 135 children who otherwise would have gone to the 'Lockups,' having been brought to us by the police, and 62 children by the School Board officers. We are glad to have been the means of saving so many young lives from the contamination of the police cells. The Shelter has also by arrangement with the Society for the Prevention of Cruelty to Children, received 75 of their cases during the year, pending investigation or remand.

The Cheetham Hill group of Homes,

Situated in George Street, Cheetham Hill, adjoining Broughton Park, are an interesting and important division of the work. They are ten in number, and comprise the following.

Six Orphan Homes,

For Fatherless and Motherless Children, boys and girls,

The Langworthy Home, (20 girls),
The Garnett Home, (16 boys)
The Crossley Home, (16 boys)
The School Girls Home, (20 girls.)

These Homes, situated side by side, yet each distinct from the other, and forming a complete terrace, have been full throughout the year with the class for whom they are intended. They are being brought up in a very true and natural family life, the mother, children, and the helper, dwelling together as one family. All the children go out to school, the boys to the Clarendon Road Board School, the girls to St. Mark's National School, and thus mingle naturally with the children of the neighbourhood. As the boys come to working age, they generally go as indoor apprentices to respectable tradesmen in the surrounding towns.

The girls are eagerly sought for as nurse girls, or domestic servants.

Rosen Hallas Girls' Training Home & Laundry.

This home, which has been very full throughout the year, receives destitute girls, and also those in grave moral danger, and gives them an excellent training in all household duties and laundry work, thus fitting them for domestic service either at home or abroad. It dealt with a total of 86 cases during the past year, of which 23 went forth in the Spring to Canada inder

the care of Miss Smethurst, who, after depositing her charge with Mr. & Mrs. Wallace of Belleville, who had good homes awaiting them, was enabled to visit a number of the girls placed out in former years, and to bring back a satisfactory account of the great majority. The same results have been attained in the case of those placed in home service; very beautiful is it to see, generally on the first Sunday in the month, former inmates of all the Cheetham Hill Homes gathering back to have tea at the old home and confer with 'Mother' as to their hopes and fears or difficulties. Each year the gathering of old girls who have held their places with credit grows larger, and although an occasional failure comes, as there must be in work of this kind (nay in all Christian work) we can see the hand of God owning the loving self-denial and faith and prayer of our 'Mothers' and their helpers. earnest sowing of the good seed, and their faithful training of the young lives committed to their care, will bring forth a still more blessed harvest in the days to come.

The Convalescent Cottage

adjoining Rosen Hallas, the gift of two sisters some years ago, has for another twelve months fulfilled its wise and loving purpose, in relieving the large families adjoining of their weak and ailing ones, and giving them the nursing and nourishment they needed.

Bethesda Home for Cripples and Incurables.

This bright and happy home, notwithstanding its "crippled, maimed, paralysed, and generably incurable inmates," has proved a great blessing to the 3r afflicted

19

children who have dwelt under its roof. Being a mixed home the ages for admission are generally as follows:

Little Boys admitted from the age of two to ten years.

Little Girls admitted from the age of two to fourteen years.

The girls' side has been very full all through the year. On the boys' side there are two or three vacancies. The admission is not by voting, but by application to the Secretary, who personally investigates each case, and then the Committee admit the most needy and most suffering ones. These become at once the object of the tenderest care on the part of Miss Owen and her nurses, which, if possible, increases as the end of the suffering life approaches.

While complete cures are hardly to be expected some wonderful recoveries have been made, due under God to the combined care and skill of Miss Owen, the matron, and Dr. Rodger, the Honorary Medical officer of the Home, who is devoted in his attention to the little patients.

We have to record with thankfulness, only one death during the past year, "a record year" for Bethesda, and with equal gratitude we acknowledge the endowment of three new cots, during the same period, by the gift of £500 from three families, viz:—The "Losh-Crossby" Cot; The "Mary Ann Whitehead" Cot; and The "Frances" Cot; making the total of endowed cots 26.

Home for Neglected Motherless Children,

Tetlow Grove House.

This, the tenth home of the Cheetham Hill group, has now completed its first year and fully justifies its existence. Those who know the wretched surroundings from which came the noisy, happy throng who now fill this home can alone realise the blessing, physically and morally, which the change has wrought for them. It has dealt with 31 children during the year.

Ere we pass from the Cheetham Hill Homes a brief outline of one or two recent cases admitted will shew the deeply important nature of the work.

Winnie was a gentle, pale faced child of twelve years, who, in addition to being deformed, had heart disease. We were appealed to by correspondence to receive her as her father was in prison, and her mother was "notorious" as a drunkard and worse in a neighbouring town. We pointed out that with such parents we could have little hope of being allowed to remain in undisturbed possession of the girl, and would not the Certified Industrial School, which possessed compulsory powers, be the proper place. This was admitted as the mother when in drink was violent, breaking windows, etc., unless allowed to see the child, but her extreme delicacy made her unsuitable for any industrial school. So we received Winnie, a sad, lovable gentle child. A few days ago we got the police record of the father which showed ten convictions recorded against him, some of the worst character!

How long we shall be allowed to retain this frail, delicate child we know not, we hope while the brief life lasts.

One more must suffice.

FLORENCE was a girl of fifteen, rather refined looking, and well spoken. She was brought to our "Ever Open Door" about midnight by a policeman having been found sleeping out. Her clothing was past description, it had at once to be destroyed, and the hair in such a state it had to be cut off. The story she told, which subsequent investigation verified, was as follows. The parents, stepfather and mother, lived in a neighbouring town, the one a Roman Catholic, the other not; one given to drink, etc., the home not only poor, but unhappy. No wonder Florence became a wanderer. Then came restraint, sent first to one Roman Catholic home, then to another, absconded from both, drifted to Manchester, and for three weeks of the severest weather of this winter slept in the back yard of an empty house! Asked what she did for food, she said she went to Shudehill market every day and helped the women who had stalls, etc., and they gave her "summat to eat."

We have felt here is a fact almost stranger than fiction! This nice looking girl in the heart of a great city, alone and absolutely neglected, jobbing about our biggest market by day and then in the shadows of evening creeping away like a hunted beast to its lair! and this for three or four weeks!

Were we not afraid of unduly extending this report we might properly insert here a selection from the very interesting letters received from those who formerly dwelt under our roofs. When they leave the homes the influence of the homes does not cease; the intercourse of the "Home Mother" with the children she had brought up, no longer possible personally, is continued by correspondence. This is specially the case in the Girls' homes, and, of course to the largest extent with those who go to situations in Canada. Every mail brings its tale of letters, and the Canadian correspondence is growing an important part of the work, important not only because of the time it occupies, but still more because of the influence it exerts in guiding the young lives now growing into manhood and womanhood, and is continued until marriage and after, with nothing but the happiest results.

It will be of interest to many of our subscribers to know that correspondence and intercourse is kept up with those who have passed away from our immediate care.

A short note from one whose life up to fourteen years of age was spent in Angel Meadow must suffice.

PICTON, ONTARIO.

December, 1897.

Thank you very much for your nice letter which I received in October. I was glad to hear that you and Mrs. Shaw had been to Canada, but so sorry I did not see you. I wish I had known earlier, I would have made an effort to see you, for you have been like a father to me, and Mrs. Shaw like a mother. May God bless you both and prosper you in the work you are doing. This is my fifth year in Canada and I have never regretted coming, I hope all the other girls can say the same. Do you often hear of your

girls leaving their situations for homes of their own? Well, I am engaged to a young farmer, a nice, promising young man, he neither drinks nor smokes, and all my friends here like him much. I am sure you will all pray for me. I wish my sister was outhere, I could soon get her a place; my mistress gives all the Rosen Hallas girls a good name. Love and best wishes to mother (Miss Smethurst) and all,

Yours gratefully, A. S.

The remaining branches of the Institution are:

The Sea-Side Home at Lytham, where 187 weak and ailing children from all parts of our city have had an average stay of 18 days.

The Summer Camp at Birkdale, Southport, where 1167 boys from the poorest parts of our city have had a week's holiday under canvas, with the healthiest and happiest surroundings.

The Messenger Brigade, 1, Chatham Street, which has given useful employment to 160 boys who would otherwise have probably drifted on to the streets; finding permanent situations for 46 of them, and having a weekly Bible Class of 50 members.

The Day Nursery, Carruthers Street, Ancoats, where 2952 attendances of little children have been registered.

The Police Court Mission to Lads, which dealt with 58 cases of elder lads, chiefly first offenders, who were referred to our officer by the magistrates.

The Prison Gate Mission, which has been carried on actively throughout the year, every morning at 7 o'clock finding our workers at the gate; and where 6492 men and boys, and 3163 women and girls, or a total number of 9655 discharged prisoners came to the Mission Hall close to the prison gate. 2066 of them signed the temperance pledge, and were personally urged to begin a better life.

These complete the chain of blessed effort which has its centre at Strangeways.

Finances.

The cost of carrying on a work at once so large and so varied as that which is only barely outlined in the foregoing pages, must necessarily be large. The total expenditure on Maintenance account being £12,956 4s. od., but the same Hand that guided in the foundation of the work 28 years ago has led from step to step supplying the increased need as the work has grown from year to year. It will not be necessary in the face of the very full Financial Statement which accompanies this report, to say more here, except to call attention to one very satisfactory source of income which is contained in the statement, viz.:

Earnings of Boys & Girls and profit on their work, £2660 3s. 11d.

The old subscribers will see from this that the motto of twenty-eight years ago is still in force, not only on the title page of all reports, but as an active principle—

"WE HELP THOSE WHO HELP THEMSELVES."

A few words on two subjects of some importance must bring this report to a close.

Emigration.

We have been permitted during the last 15 years to place about one thousand children on selected farm homes in the dominion of Canada, chiefly in the province of Ontario. The class emigrated has been not (as too many thought) the idle and semi-criminal 'neer-do-weels,' whose friends desire to send them abroad because they are a trouble and disgrace at home, but hopeful boys and girls, sound in body and mind, but who, if they remained here, would probably be dragged back by the bad surroundings from which they were rescued, into the misery of their former lot.

The fact of this large family abroad and the responsibility which it involved, together with a recent alteration in the laws of Ontario on the subject of child immigration, rendered it desirable that the Honorary Secretary should personally visit and investigate the work, judge of its prospects, and confer on the spot with Mr. and Mrs. Wallace, through whose excellent agency at Belleville, Ontario, the work has been conducted. This visit was made in the autumn of last year, and the result of it embodied in a pamphlet issued for private circulation among the Committee and others. Briefly the results. are these. Fifty of the boys and girls sent out in former years were visited, they were seen under all circumstances, in their homes and at their work, the fullest opportunity was afforded of complaining, if it was desired; but beyond one who complained that he could not get some wages due from a former employer (and which our agent in the North West promised to look into) and two who complained of loneliness, we heard none. The homes were as a rule, comfortable, those in the North West not equal to those in Ontario, but in both, the living was plentiful and all that could be desired, even in the North West where some of the farm homes.

Of course all are not successes. We have our failures in Canada as we have at home, and as all engaged in the up-bringing of children, in whatever walk of life, experience. But these are the exceptions, and the work when carefully conducted, is full of encouragement.

The new law, of which so much has been heard. merely makes compulsory what has hitherto been done voluntarily by the best conducted emigration agencies. i.e., First, bring out no improper children! and Second, regularly inspect and report on those you bring out. It adds a Third requirement which is all in our favour on this side. The Canadians who receive children are bound under penalty to treat them properly, to shield them from wrong on the part of others, to report of their health and welfare annually, and to return them to the distributing home at their expense should occasion arise.

On the whole, save in one or two details, the Act is fair all round, we shall await the first year's working with some interest, and shall always be glad that we were permitted when in Canada, to make the acquaintance of its framers, Hon. Col. Gibson, and Mr. J. J. Kelso. We feel sure the cause of the children will not suffer in their hands.

The other subject on which we would fain say a word ere we close is

State Elementary Workshops.

Whether ignorance or idleness is the greater evil to a

Tailoring, Central Refuge.

State is a question on which much might be written on both sides; that the State should provide as far as possible against both evils in the case of its children will be admitted. In England we have decided that the children of the poor shall at least not grow up in ignorance, but little provision has been made, that the education thus secured at enormous cost, shall be turned to the best account. On the contrary, it is, in an appalling number of cases, almost wasted by the idle years which follow the age of school exemption. It has been too much forgotten that our children have hands to be educated, as well as heads, and that it is by means of the former rather than the latter that they have to live in the future.

This subject is continually being forced upon our attention by the numbers of boys and girls of 15 to 17 years of age, who have passed the higher standards before leaving school, being found on the street and applying at the Refuge in rags and destitution.

Last year out of the 540 applicants at Strangeways, 190, or upwards of one-third of the whole, were fifth and sixth Standard boys! Surely there is a serious leakage somewhere. If this is in any degree a criterion for other parts of our country of the proportion of boys, who having passed high in the Elementary Education test, are found without employment, idle and drifting, it is surely deplorable that so good a work, so well begun, should practically be nullified for want of a little further control by the State whose interests in the matter are so vitally concerned. The principle for which we contend is already recognized in some departments of

child control, for in Industrial Schools, etc., a boy is found education and employment up to the age of 16. We need to realise that the average lad saved from a bad and wasted life is worth more to the community than one reformed from habits evil to himself and dangerous to his fellows. Year by year thousands of children pass out of Elementary Schools, but where do they pass to? Not, it is much to be feared, into useful employment, but into casual hob-jobbing or street work, and soon they swell the army of street loafers and idlers, the next step to the gaol, and with them at least the vast expenditure of the Education Act has been and is being wasted.

WHEREIN LIES THE REMEDY?

The question is not free from difficulty, but we endorse most heartily the recommendation of a member of Parliament who has bestowed much thought on the subject. Who says:—

"The State should provide a system of simple industrial training for children up to 16 years of age, and make the attendance compulsory, unless they are in regular employment."

If this were done it might then be declared illegal for any child to leave school until the parent or guardian can produce certificate that employment is provided for him. In the absence of such certificate, and yet where the boy has reached the age (say 14) and the standard required by the Act, then let there be as the complement of the Elementary Education Act, Elementary Industrial Workshops, into which the boys shall go until 16 years of age, or until regular employment is found. These shops should be bright, active, healthy places, the work would of course be elementary, but it would

be preparatory. Each workshop would have for its elementary employment, the class of work which prevailed in the district. To these shops employers and tradesmen requiring apprentices and assistants would naturally apply; the boys with this preparatory training would be more likely to keep their first places, and so the great army of juvenile idlers would be largely diminished, and the full benefit of the Education Act secured.

We commend this whole subject of the children—our future men and women—to the thoughtful consideration of our readers, remembering the class we deal with the subject grows the more we contemplate it: their nurture, their upbringing, and the formation of their character is a solemn trust which God has committed to us, to be faithful to that trust is at once our first duty and our highest privilege.

On behalf of the Committee,

LEONARD K. SHAW, Hon. Sec.

(CENTRAL REFUGE AND GREAT DUCIE STREET HOMES).

For the first time in 27 years I have to record an outbreak of Typhoid Fever in the Refuge: there were fifteen cases in all. Every case recovered, and they were most carefully tended at Monsall Hospital.

The origin I have been wholly unable to trace; but our scheme of drainage has been thoroughly overhauled, and to a large extent the mode of construction changed.

For all this I wish publicly to express my thanks to the Committee, and especially for the promptitude with which all my suggestions and wishes have been met. I believe all the Strangeways homes are now in good sanitary condition.

The health of all the boys is excellent.

We have had one death; a boy in the Brigade Home. who died in the Salford Royal Hospital from Acute Peritonitis.

ANDREW BOUTFLOWER.

March 16th, 1898.

(Honorary Surgeon).

(CHEETHAM HILL HOMES.)

One of the little sufferers in our Cripples' Home has been called "up higher" during the year, owing to-Spinal Caries. At our Cottage Hospital after months of hopeless suffering from Tobes Mesenterica another ended his short life with us.

With these exceptions there have been no serious cases to record, nor even any cases of Infectious Disease in our Cheetham Hill Homes, the general condition of the children having continued uniformly good.

R. RODGER, M.D.

In sending forth this report the Committee desire to record their deep obligation to the Honorary Solicitors. Messrs. Farrar & Co., the Honorary Medical Officers. Dr. Boutflower, Strangeways; Dr. Rodger, Cheetham Hill; Dr. Fisher, Lytham; and Mr. W. Simms, Hon. Dentist; for valuable services rendered during the year.

Dr. Ledward and Dr. Young have also been exceedingly kind in connection with our work at the Summer Camp, and the Children's Shelter respectively.

To the authorities of the Salford Royal Hospital, and the Monsall Hospital, we tender hearty thanks for prompt admission and careful tendence to several cases. The recovery of the fever cases sent to Monsall was largely due to the care bestowed upon them.

Also to the Trustees of Thos. Mynshull's Charity who have admitted to the benefits thereof several of our apprentices.

We would also name with gratitude the many friends at Lytham and Birkdale, who have shewn continued sympathy and help to our Sea Side Home and Summer Camp.

To the ladies and gentlemen, who, either as Collectors, Teachers at our Sunday and week evening Classes, members of working parties, and also those who carried to a successful result the Annual Sale of Work, we desire to express very warm thanks.

To all, who by their generosity, their active service, or their loving prayerful sympathy, have contributed to the success of the work, the Committee tender their thanks, not forgetting the continued devotion of the regular staff, upon whose loyal co-operation so much of the good attained has depended.

HOW TO HELP THE WORK.

Write to the "Secretary," Francis Street, Strangeways, for a

COLLECTING BOX

and collect what you can by December 31st. We have very pretty boxes.

Or, if you prefer,-

ASK FOR A COLLECTING CARD

and one will be sent by post.

If you think you can collect £15 to support a child, or £10 to cover the Emigration expenses of one child, write to the Secretary, and he will send you the photograph of one. It would be a happy thing to feel that you were thus the means of the rescue of "one such little child."

Or, send us any article that you can spare, and that can be turned into money for the benefit of our work; such as jewellery, pictures, articles of virtu, &c.

Last, but not least; when you see or hear of a poor wretched, neglected child, don't give it a copper and pass on; stay a minute and enquire into the case, and if you cannot bring it to the Refuge, send us the name and address, and the case shall be visited and, if possible permanently helped.

And, above all, when enjoying the comforts of your own happy home, breathe a prayer for poor homeless children, and for those who are working among them.
