

Communication

This half term we will be exploring moon zoom. We will be exploring stories on astronauts and aliens. We will draw focus on these stories in different sessions exploring instructions, investigation and mark making. We will be investigating an 'alien crash site' and use communication board to explore how different elements feel and their color. We will continue with our pre-phonics; using sound buttons and doing space themed body percussion.

My World – Science

In science we will be making and launching rockets. We will use visual instructions and be exploring cause and effect. We will also be using science to work on our gross motor skills, throwing and catching planets and matching them to colours around the class.

My World – Humanities

MOON ZOOM/ EARTH AND SPACE

This half term we will be exploring:

Understanding my relationships, working with advocates, being with others, accessing and enjoying public spaces, finding individual interest. How we function in the world, learning about the world Space, Planet and Astronauts
Space terrain NASA Space travel.

Reasoning

In reasoning we will be continuing with our work on measure, this term looking at looking at empty and full. We will also continue to explore shape, numbers and pattern embedding these skills by providing opportunities for their exploration within the theme moon zoom.

Creativity – Art, Design & Technology

For creativity this term we are focussing on using different tools to create space collages and model rockets. This will develop both fine and gross motor skills as well as following simple visual instructions.

Understanding Me and My Relationships

We are continuing to embed tooth brushing and hand washing into our class schedule. We will also have access to dressing up resources to promote independent dressing. Linking to reasoning, we will also be accessing a shopping activity on site to develop the skills to transition off site to the supermarket.

Creativity – Music

Pupils will listen and respond to musical motifs from various films and TV programmes with a space theme. They will continue to explore an increasing amount of musical instruments, developing turn taking skills and curiosity.

My World – Food Technology

This term we are working towards making pizzas, choosing different toppings and trying our results.

Physical Development

Children will continue to build their gross motor skills by accessing sensory circuit. This provides an opportunity for children to access different ways of movement as well as accessing different tools to meet sensory needs.
