

These are the exciting things I will be studying this half term...

Humanities

This half term we will be learning about using natural materials to make instruments. Pupils will collect lots of items outdoors that could play out a beat or make an interesting sound. Explore what happens when beating a drum stick on a wall, the ground, a tree trunk, a bin lid or iron railings.

English

This half term we will be looking at the topic Beat Band Boogie. This means we will be exploring rhyme and rhythm when reading.

Science

This half term the pupils will be exploring sound. Pupils will be investigating how different materials of various shapes and sizes make different sounds.

Maths

This half term we will be looking at developing number skills and using rhyme and beat in counting songs.

Food Technology

Pupils will be starting a kitchen beat band. They will use pans, colanders and other kitchen utensils. Explore sounds that can be made by tapping and beating.

Music

This term the pupils will be following simple instructions to make a range of different percussion instruments, such as bottle shakers, rain sticks and castanets.

ICT

This half term students will be using technology to support their learning.

They will be using online counting, matching and sequencing games to support their learning.

RE

This half term we will be exploring symbols and objects representing Buddhism. Students will explore the festival of Kathina.
